

BURSARIES

Anglo-platinum bursaries

Minimum requirements and selection criteria

To be eligible for selection for an Anglo Platinum bursary, you must meet the following minimum requirements:

Tertiary Route

Mining Engineering, Mechanical and Electrical Engineering (light and heavy current), Metallurgy, Chemical Engineering, Geology, Rock Engineering, Mine Surveying and Analytical Chemistry

Mathematics and Science at the C Higher Grade or B Standard Grade levels

Finance/Accounting

Mathematics at the C Higher Grade or B Standard Grade levels. Good school performance in Accounting and/or Business Economics would be an advantage.

Anglo Platinum also offers bursaries to students who have already commenced with tertiary study in all of the abovementioned disciplines and who are performing at a high academic standard. The Exposure Year does not apply to new bursars who have already commenced with

tertiary study. **Human Resources**

Anglo Platinum does not offer bursaries for the Human Resources discipline. However, students who have obtained at least a three-year qualification in an appropriate field are eligible for selection and appointment directly into the company's Graduate Development programme.

Practical Route

Anglo Platinum also offers Practical Route bursaries for Mine Ventilation/Environmental Control, Mining and Mine Surveying. Bursars who follow this route would not attend a tertiary institution but would be developed on site through course-based and practical interventions.

There is currently no tertiary course available for Mine Ventilation/Environmental Control. The provision of the theory is thus conducted at Anglo Platinum. The minimum selection criteria for Mine Ventilation and Mine Surveying Practical Route are Matric/Grade 12 Maths and Science D Higher Grade or C Standard Grade.

To be eligible for Mining Practical Route, applicants must have done Maths and Science at Matric/Grade 12 level.
